

WILDCAT WELLNESS: TELE-HEALTH

Health and Wellness for all!

We already have a doctor!

Wildcat Wellness is NOT meant to replace your child's doctor. It is an option for busy parents. Often times it can be difficult to leave work and get into your regular doctor, or a child isn't sick enough they need to miss a full day of school. Wildcat Wellness is available at school, every day school is in session, to accommodate the parents' and student's needs.

Can I be there for my child's appointment?

After the school nurse determines further medical care is needed, a call to the parent/guardian will be made to obtain approval for a tele-health appointment. (Prior to an appointment being made, the tele-health registration and health form must be completed and on file.) If you would like to be present for the appointment, this too is possible.

Where do I register for Wildcat Wellness?

Obtain registration forms from the school nurse, online at: www.onstedschools.k12.mi.us, or from the building offices.

What is Tele-Health?

Tele-health is a way for your child to see a health care provider while remaining at school. The school nurse will connect via a secure encrypted line to the Family Medical Center (FMC) of Michigan in Adrian via a computer and camera. Your child will be assessed by a doctor, nurse practitioner or physician's assistant with their tele-health visit.

Will I be billed for the appointment?

Insurances will be billed for services provided and co-pays and deductibles may apply. Medicaid and most commercial insurances are accepted. If your child does not have insurance, we can assist you in obtaining insurance coverage. No one will be denied healthcare due to the inability to pay.

What can my child be seen for?

- Strep Throat
- Ear Infections
- Influenza
- UTI's
- Sports Physicals
- Behavioral Health
- Skin Rashes
- Pregnancy/STI Testing
- Immunizations
- Minor Injuries

Services NOT provided:

- Dispensing Contraception
- Abortion Counseling
